

HEAVY EQUIPMENT GPS

Rugged, Weather-Resistant GPS Asset Protection

How it works...

GPS satellites transmit to Earth...

Equipment receives GPS data...

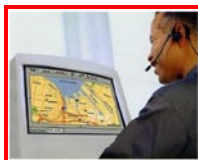

Cell towers forward the data...

Secure servers store your data...

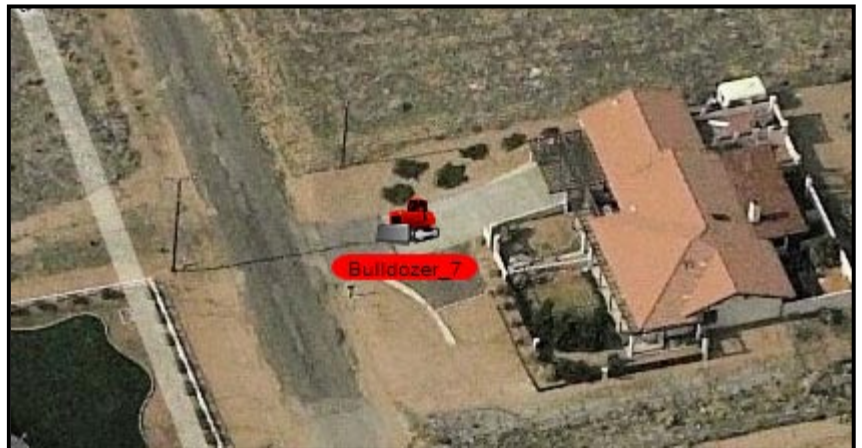

Locate equipment from any PC!

If you Own, Finance, or Rent Equipment...

- ◆ **Locate, Disable and Recover...** Immediately locate and disable your equipment from any PC or cell phone!
- ◆ **Alerts...** Instant phone and email alerts for theft, speeding, geofence violations, motion, service and much more.
- ◆ **Shock-Motion Sensing...** Automatic notification for equipment tampering, and unauthorized movement.
- ◆ **Daily Auto-Locate...** Location reports every 25 hours.
- ◆ **User-Defined Geofences...** Custom geofences let you know if equipment is leaving area, or entering a restricted area.
- ◆ **Power Management...** If the equipment encounters low voltage, alerts are sent. If a thief disconnects main power, device can still send alerts with an internal back-up battery.
- ◆ **Virtual Odometer...** Keep track of mileage and run-times for billing purposes. Full reports and notifications.
- ◆ **Maintenance...** Prompt notifications and reports for oil changes and other scheduled maintenance.
- ◆ **Robust Reports...** Trip reports, maintenance, usage, more.
- ◆ **Warranty ...** 3 Year Warranty
