

MOTORCYCLE - ATV - MARINE

Rugged, Water-Proof GPS Protection

How it works...

GPS satellites transmit to Earth...

Motorcycle receives GPS data...

Cell towers forward the data...

Secure servers store your data...

Locate your ride from any PC!

Add Revenue to your F & I Department

- ◆ **Locate, Disable and Recover...** Immediately locate and disable your motorcycle from any PC or cell phone!
- ◆ **Alerts...** Instant phone and email alerts for theft, speeding, geofence violations, motion, service and much more.
- ◆ **Shock-Motion Sensing...** Automatic notification for tampering, and unauthorized movement.
- ◆ **Daily Auto-Locate...** Location reports every 25 hours.
- ◆ **User-Defined Geofences...** Custom geofences let you know if motorcycle is leaving area, or entering a restricted area.
- ◆ **Power Management...** If the bike encounters low voltage, alerts are sent. If a thief disconnects main power, device can still send alerts with an internal back-up battery.
- ◆ **Water-proof...** Also resistant to oil and gas.
- ◆ **Insurance...** Insurance discounts may apply. Check with your local Insurance agent.
- ◆ **Warranty...** 3 Year Warranty
