

The GPS Vehicle Finder *Fleet 2000* **Your Fleet Management GPS Solution**

The GPS Vehicle Finder *Fleet 2000* is ideal for companies whose GPS tracking requirements include:

- Digital and satellite mapping
- Automatic locates every 5 minutes
- Daily event reports (ignition on/off, moving, idling)
- Other reports (activity, speeding, stop & timesheet)
- Daily reports can be automatically emailed to you
- Landmarks - View all your customers' names on map
- Map historical bread crumb movement of vehicle(s)
- Dispatch solutions (find nearest vehicle to an address)
- Monitoring time when vehicle arrives/leaves job/home
- Automatic notification if vehicle leaves authorized area

Critical cost, efficiency and customer service benefits to you include:

- Reducing overtime due to increased driver productivity
- More customer stops in a day resulting in added revenue
- Adding billable hours through accurate stopped time reports at customer locations
- Improving customer service by notifying customers how far driver is from their location
- Lowering vehicle operational costs (fuel, maintenance, etc.) and insurance premiums
- Eliminating unauthorized vehicle usage and side jobs
- Improve dispatching through more efficient driver routing
